Facts and Figures 2016/17: Tables for the Calculation of Damages

Edited by Robin de Wilde, Maurice Faull and Peter Jennings

Facts & Figures: Tables for the Calculation of Damages is widely used across the profession, frequently cited in court and makes the entire calculation process quicker, easier and more accurate.

The new edition:

• Provides access to the latest, up-to-date financial and statistical information, as an annual publication.
• Includes the newest edition of the Ogden tables.
• Assists with the calculation of special damages and claims for loss of earnings.
• Helps with the production of schedules and counter-schedules.
• Supplies reliable data that can be trusted – produced in association with the Professional Negligence Bar EU criminal law;

Facts & Figures is now in its 21st edition. This popular collection of tables brings together in one volume all the financial and statistical information needed for assessing special damages quickly, easily and accurately. It dispenses with the need to search a variety of sources.
